Contact us at or tweet us @tiktok us 15 July 2025 Version 40.8.0 We've FIXED SOME BUGS and UPDATED FEATURES to improve your experience on TikTok. If you see people filming themselves doing LITERALLY ANYTHING, they're probably doing it for this. Scroll infinitely through PERFECT LIP-SYNCS AND DANCE MOVES, HILARIOUS SKETCHES, FLUFFY PETS and BITES OF POP CULTURE that spark a MILLION MEMES. I LOVE TIKTOK I just wish that SMALL CREATORS could be on the FORYOUPAGE because I know some small accounts that DESERVE to be on the foryoupage. Also VIDEOS COULD HAVE DISLIKE BUTTONS or DISLIKE FOR COMMENTS, even though it would be BAD LIKE SAY IF SOMEONE MADE A VIDEO and then got a LOT of HATE then the creator can be HURT. Change the like colour. There should be a SETTING where you can change the colour of the like button to have it more suitable for you. Anyone should be able to MESSAGE ANYONE on DMS and you shouldn't have to use a phone number for it to work. I think you should be able to USE THE SAME EMAIL over and over yet make a new account because a few times I haven't been able to get on my account or wanted a new one and I had to make a new email. In the SAVED VIDEOS you can make different FOLDERS so say if you saved something sad, you could put it in a folder labeled "sad" or "happy". There should be UNLIMITED LIKES. I always like my friend's VIDEOS and VIDEOS I just like, but I always get a notification saying I can't like anymore which makes me pretty SAD. Edit- I also think CREATORS OVER 2 MILLION OR AT LEAST 1.5 MILLION FOLLOWERS should be VERIFIED. I should be verified (don't take that seriously that is a joke about me being verified I don't even have 300 FOLLOWERS ./Thank you for reading this. - a tiktok user Hey @lizz.io ! Thank you for taking the time to reach out. TikTok is growing and evolving EVERY DAY and we couldn't do it without such LOYAL AND HONEST FANS like you! The way we keep the app and the community working together so well is by being in touch with our users and what they really want. We hear you and are taking your feedback to heart. Please look out for more updates in the future. I think TikTok is very good it keeps you OCCUPIED and you can get IDEAS from there. See things, but the only thing I don't like is when I'm MISJUDGED. You have put a ban on me for I don't know how long that man approached my comment I don't speak bad about anyone, but I don't like it the way people take someone's name off. I always still say there is only one genuine CAN YAMAN and there is ALL OF THE OTHERS, USE HISand name to gain from it. He is the one that call me a scam, not the other way around. If you read that properly, you will see that, and I replied. I am not a scam. This is wrong. I don't understand how these people are let get away with this. I have been scammed myself many times I know what that feelings like it's a sick horrible feeling. they want money can be abusive. No I am none of these I don't understand why you've put a ban on me because I don't feel that I was at fault, I was only speaking the truth. Apart from this happening, I'm very happy with TikTok but a lot of good things on there. Interesting and funny. Thank you for listening. You need to have a space where people can write what they need to say to you when there is a complaint or you complain you don't have that you charge for yourself? That is wrong. You're not giving the innocent people a chance. I'm very unhappy and dissatisfied with that. The developer, TikTok Ltd., indicates that the app's privacy practices may include handling of data as described below. For more information, see the developer's privacy policy. The following data may be used to track you across apps and websites owned by other companies: The following data may be collected and linked to your identity: Purchases Financial Info Location Contact Info Contacts User Content Search History Browsing History Identifiers Usage Data Diagnostics The following data may be collected but it is not linked to your identity: Privacy practices may vary, for example, based on the features you use or your age. Contact us at or tweet us @tiktok us Jul 15, 2025 Version 40.8.0 We've fixed some bugs and updated features to improve your experience on TikTok. If you ever see a group of teenagers (or twenty- or thirtysomethings) filming themselves doing literally anything, know this: They're probably making a video to share on TikTok. Its infinite scroll of new videos combines perfectly edited lip-synching, hilarious sketches, and mesmerizing dance moves with delightful special effects and filters. It's hard not to fall in love with everyone's fluffy pets, awkward parents, impressive glow-ups, fails of every kind, and songs and pop-culture references that spark a million memes. Hi there, I've had the app tiktok since I was young and I've seen how much it's grown and changed ##The creator of TikTok has announced that the app will be shutting down its service after five years, leaving over 170 million users in the US and billions worldwide in a state of panic. The platform, which was once used as a digital diary by millions, has now documented the lives of its users for nearly six years. The reason behind this decision is shrouded in mystery, but rumors suggest that it's due to the growing power of the app, which has become too big and too powerful for some people to handle. The developers claim that the TikTok ban was never about safety or information protection but rather an attempt to have control over its users. Many users are devastated by this news and are frantically trying to download all their important content before it disappears in a matter of hours. Despite being banned from social media, some users still manage to share their thoughts on the app's impact on their lives, citing its ability to bring people together and provide a platform for self-expression. TikTok has always been more than just a social media app: it's been an entertainment giant, with popular creators producing engaging content that resonates with millions. The developers have announced plans to expand their creation tools, allowing users to produce even longer videos or participate in live streams. However, the news of TikTok's demise has left many feeling lost and disconnected. As one user put it, "I've changed so much over the past six years, and some of it is due to TikTok." Another user noted that they've connected with people from different walks of life, shared their hobbies and cultures, and even resolved disagreements by realizing they're talking to real humans. As the clock ticks down on TikTok's existence, users are taking one last look at the app before it disappears forever. The developer has indicated that some data may be used to track users across apps and websites, but there's little information available about what will happen to the platform's vast collection of user-generated content. In a final statement, TikTok acknowledged its impact on users' lives and thanked them for being part of the community. "TikTok brought the whole world closer together," it said. As the app goes dark, users can only hope that one day they'll meet again - but for now, this is goodbye. To start using TikTok Now at the age of 16, simply create an account, which will be private by default. This means that only people you've chosen to follow will be able to see your content. Those under the age of 18 cannot share their posts on the Explore feed, and users between the ages of 13 and 15 have limited commenting options to just Friends only, helping to prevent unwanted interactions. On the other hand, individuals aged 18 and above have more sharing options, including being able to share with mutual friends or the broader TikTok Now community based on their chosen privacy settings. To customize your privacy settings for TikTok Now, you can tap "Friends can view" on the Post screen and choose who you'd like to allow viewing your posts. The available settings include 'Anyone who follows you, and you follow back' or 'Everyone in your area', with the latter option allowing anyone in your vicinity to see your posts but not comment or interact with them without being followed back. By following these steps, users can set up a TikTok account by downloading the app from the App Store or Google Play, opening it, and then choosing their sign-up method to create an account, ensuring that their email and phone number are valid for logging in and password recovery.
